MACNAMARA MILL CRUSHES 65 TONS DAILY

A rumor was afloat yesterday that a rich body of ore had been encountered on the 600-foot level of the MacNamara mine, this, however, was misleading as the management stated to a representative of the Bonanza that no strike of any importance had been made, but the lower workings of the property was in excellent shape and good ore was extracted regularly. The principal work at the present time is confined to drifting and raising on the lower vein, which is showing an increase in values as development proceeds. The upper vein has produced over \$1,500,000.

During the first 15 days of the present month the mill reduced 289 tons of ore, an average of 65 tons daily.

SAYS WILL RESUME WORK AFTER FIRST OF MONTH

At a conference between the board of county commissioners of this county and the members of the state prison board, it was decided that the convict work on the roads between Reno and Carson would be resumed after June 1. Just how many prisoners would be put to work was not indicated, but it appeared that a smaller number would be used than formerly. With the announcement came the indication by the Washoe commissioners that when the men were put to work the bills owing by the county, amounting to about \$1,200, would be paid over to the prison board.—Reno Journal.

ABE RUEF'S STORY IN BULLETIN IS RESUMED.

SAN FRANCISCO, May 22.—The San Francisco Bulletin prints the foreword of the series of articles in which, it announces, Abraham Ruef, serving a penitentiary term as the result of the graft investigations following the fire, will tell the entire story of the events leading to his conviction. Yesterday's installment, was, in the main, a repetition of the previous foreword. It is preceded by an announcement by Ruef, which is in part as follows:

"There is no personal malice in this, no intent to 'get even' with anybody, although, as to some things, I might be justified in doing even that. But I have left all animosities and enmities behind. I know that I can yet be of use in the world.

"I want the public to judge where the fault lay, where the temptations and mistakes and who should be blamed and how much."

HUSBAND DESERTS WIFE.

MASON, Nev., May 22.—W. H. Davis, master mechanic at the Copper Belt shops, mysteriously disappeared from here, leaving numerous unpaid bills and incidentally a young wife. He rounded up all his friends for what he could borrow from them and with his April pay check of \$175 he left on a midnight train for parts unknown.

His deserted wife has reason to believe that there is another woman in the case and her faithless spouse is now or will soon be with his affinity and probably happy. His wife left her Kansas City home against her parents' advice to marry him, she says.

FELON NOT COMPELLED TO SUPPORT CHILDREN.

RIVERSIDE, Cal., May 22.—A man convicted of a felony cannot be compelled under the law to support his children even if he is free at the time on probation. This was the ruling rendered by the state court of appeal in the case of Frank Green, recently paroled from San Quentin.

The appellate court ruled that a child's parent was not recognized legally when that parent was under a felony charge or conviction. The decision has been awaited with eager interest by attorneys all over the state.

He—Did you ever see anything at so-called bargain sales that was really cheap?

She—Yes, the look on the man's face who accompanied his wife to one of them.

An old lady, being told that a certain lawyer "was lying at the point of death," exclaimed: "My gracious! Won't even death stop that man's lying?"

WOMAN SUFFRAGE MEETING IS HELD

(Contributed.)

The second meeting of the Nye county branch of the Nevada Suffrage Society was held yesterday afternoon at Knights of Pythias hall. About 20 women were present. A constitution founded upon that of the state society was adopted and plans for the future work of the organization were discussed.

It is hoped that every woman interested in the cause of equal suffrage and the furtherance of clean politics will give this association her support. The club hopes to be in a position in the near future to ask men of importance in Tonopah and elsewhere to speak to them upon political situations of the day. In anticipation of the privilege of equal suffrage it is the plan of these clubs to so educate women that they will use the vote intelligently.

The next meeting will be held on Tuesday at Pythian hall at 2:15 p. m.

All women who are interested are urged to be present.

WOMAN FALLS FROM WINDMILL AND DIES.

STOCKTON, May 22.—Mrs. Emily Treadway, wife of a prominent farmer of this county, was fatally injured Saturday evening by falling from a windmill tower on the Treadway ranch, situated about eight miles east of Lodi, and died early yesterday morning. No one saw Mrs. Treadway fall, and how the accident happened is not known. It is believed that Mrs. Treadway went on the tower of the mill, which was reached by a ladder, to stop the mill, as a strong wind was blowing.

Why Send Out of Town for Your Printing

When you can have first-class work done right here, by first-class union printers.

The business man who sends out of town for his printing injures his own business as well as that of others. While on the other hand the man who patronizes home institutions increases the town's pay roll, and thereby builds up his business.

The printers and book binders in the cities of surrounding states do not come here to spend their money.
